Profile

Frontend Web Developer with **4 years of professional experience at Fullstack HQ Inc.**, specializing in **WordPress development (Elementor, Divi, WPBakery), ACF custom post types & Gutenberg blocks**, and **SEO optimization**. Skilled in building responsive, user-friendly websites with a strong focus on performance and usability. Familiar with **modern frontend frameworks (React, Next.js)** and CSS libraries, with proven ability to handle complete WordPress setups including themes, plugins, and custom functionalities.

Core Skills

- **WordPress Development:** Elementor, Divi, WPBakery, ACF (Custom Post Types, Gutenberg Blocks), Child Theme Setup, Plugin Management
 - **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Chakra UI, Bootstrap
 - **Performance & SEO:** Website Speed Optimization, On-page SEO, Mobile-first Design, Cross-Browser Compatibility
 - **CMS & E-Commerce (Basic Knowledge):** Shopify, Contentful, Storyblok, Builder.io
 - **Modern Frameworks (Basic Knowledge):** React.js, Next.js
 - **Tools:** Git/GitHub, Bitbucket, Figma to Code, Website Deployment, Jira, ClickUp, LocalWP
-

Experience

Frontend Web Developer

Fullstack HQ Inc. | May 2021 – Present (4 years)

- Developed and customized client websites using **Elementor, Divi, and WPBakery**.
- Built **custom ACF post types and Gutenberg blocks** to create dynamic content structures.
- Handled **SEO optimization and website performance tuning**, reducing load times and improving rankings.
- Created and maintained **child themes** and integrated custom functionality.
- Managed **plugin installations, updates, and troubleshooting**.
- Collaborated with cross-functional teams using **GitHub/Bitbucket for version control** and **Jira/ClickUp for task management**.

Internship – Graphics Designer

FilAm Software Technology Inc. | Jan 2020 – Mar 2020

- Designed layouts for **web, print, blogs, and motion graphics** using Adobe Photoshop, Illustrator, After Effects, and Cinema 4D.
 - Created **3D animation projects** for internal use.
 - Contributed to **front-end web design** using **HTML, CSS, and Bootstrap**.
-

Education

Bachelor of Science in Computer Science

City College of Angeles City, Pampanga Philippines | Graduated 2020

Projects

- **Ubiquity Website**
 - Developed and maintained sections of the Ubiquity corporate website using **Next.js** and **Builder.io** CMS
 - Implemented **component-based UI architecture** for reusable and scalable frontend components
 - Integrated **Builder.io visual CMS** to allow non-developers to manage and update content dynamically
 - Built **responsive and optimized pages** for multiple screen sizes
 - Improved **page performance and SEO** using Next.js features such as server-side rendering and optimized assets
- **WordPress Custom Theme Development (Multiple Client Websites)**
 - **Websites:** Susanshares, Andy Millet, Elect Anders, Capitol Painting Company, Rainier Plumbing, Susan Cox Foundation
 - **Tech Stack:** WordPress, Gutenberg Blocks, ACF, Sage 10 / Sage 11, Vite, Tailwind CSS, Blade, PHP, JavaScript
 - **Responsibilities & Achievements:**
 - Developed **custom WordPress themes** using **Sage 10 and Sage 11 (Roots ecosystem)**
 - Built **custom Gutenberg blocks** using **ACF Blocks** for flexible content management

- Implemented **Tailwind CSS utility-first styling** for responsive and scalable UI
 - Configured **Vite build pipeline** for faster development and optimized production builds
 - Used **Blade templating (Laravel-style)** to create reusable frontend components
 - Built **dynamic content structures** with **Advanced Custom Fields (ACF)**
 - Optimized **mobile responsiveness and accessibility**
 - Collaborated with designers to implement **pixel-perfect layouts**
-
